

Guidance for Parent Response/Objection to GSHS Admissions Consultation

Please find below details of what your response needs to include.

1. Proposed conversion from Single Academy Trust to Multi-Academy Trust - governors have no objection to this.
2. Increase PAN from 315 to 375 – governors agree with this proposal as this will benefit our current pupils.
3. Amend preference given to students from an additional 5 named primary schools (Burtonwood has always been named) – school objects to this as it is unreasonable and disadvantages pupils at our school.

Please also add how any of the points above affect your child or your family directly. The High School have shared with us that your own personal circumstances being affected will have more weight with Governors when they make their decision, rather than many letters saying the same thing.

Please also add if you were in anyway disadvantaged over the Christmas break and unable to access GSHS's Consultation document.

Thank you to those parents who have organised a petition. The organisers have made it clear that this petition should not replace your personal letters.
