Year 5 Newsletter

Reminders:

One of our PE lessons each week will be outdoors. Children will need their outdoor and indoor kit in school each week.

Children should be bringing one personal reading book into school. Children can choose one from the reading area or bring one from home, which they will keep in their trays.

Homework

Homework will be given out each Friday and should be completed and returned for the following Wednesday of each week.

Reading should be competed at least three times per week and children's reading records signed by an adult.

If a child has not completed either of these at home, they will attend Homework Club during Thursday lunchtime.

Happy New Year! We would like to welcome the children back, refreshed and ready for the new term.

We have started our new topic, 'South America'. We will be exploring all about Physical Geography. This will link to our PAN festival, at Par Hall, which we will send details out in the near future.

Our Learning

This half term will be focusing on the following areas:

Maths: Graphs and charts, fractions and decimals.

English: Information texts.

Science: we are continuing to explore 'forces'.

Geography: Rivers and mountains.

RE: Women in the Old Testiment.

Children's Learning

Throughout the term, remember to check our class pages on the school web site. We will regularly update these to show you what the children have been learning. There will be photographs of the children immersed in their learning and examples of their work. Reminders and dates will also appear on the Year group and class pages.

Important information

This half term, Mrs Dunning will be working with each class to prepare the children for their confirmation, should they choose to take it. We are encouraging the children to discuss this with grown ups at home.

Dates

Mr Callaway's Library Visit — 17th January 2017 PM

Mr Scott's Class Assembly — 26th January 2017
