### Y5CU/LT Class

Our class enjoyed a fantastic visit to Westbrook Orchard on Tuesday afternoon. The sun was shining down on us as we explored our local environment and searched for evidence of life cycles. We were fascinated to learn that plants are the biggest influence on life cycles, and about the important part that the sun plays in a plant's role. We particularly enjoyed making a human model of our solar system to investigate the effects that the sun's tilt has on our seasons and life cycles.

### **Student Recognition**

A number of pupils have recently been involved in planting the new community church garden, including the planting of the forget-me-not bed for dementia patients. The children asked lots of questions about the plants and how to take care of them; they said "they can't wait to see people coming into the garden to see what they have done". Well done and thank you to the children involved.

### **School Groups**
