

Menai Home Learning Activities

Try completing some of these activities that you might have done at the Conway Centre in Menai.

Make sure you get your parent's permission for these activities!

Make your bed!

The first thing you need to do is put your duvet cover and pillowcases on! You won't have any help with this so I hope you've been practising!

Make sure you keep your bed area tidy and make your bed each morning!

Meal times

Make sure you help to tidy away at the end of your meal and wipe the table!

Mountain Biking

This is Mr Henshaw's favourite activity! Get plenty of exercise on your bikes!

Climbing

You can't actually go climbing, but you can take photos where it looks like you're climbing!!! You might want to use chalk and a cycle helmet like in these pictures!

Raft Building

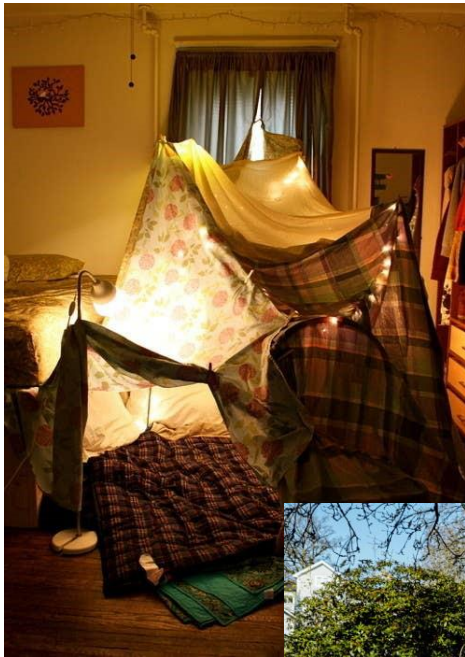

Make a raft so that they float in the kitchen sink or bath without getting wet! Here are some examples so you can see what sort of materials you could use for your raft.

Build a den

In the bushcraft activity, you get the chance to build a den and roast marshmallows on a fire that you help to start.

We don't recommend you try to start a fire but try building a den inside or out in the garden (with your parent's permission first!)

Enjoy nature!

Even if you don't build a den, make sure you spend lots of time in nature, appreciating the wildlife and flowers! We often do sketching in Menai, so take some paper and a pencil and sketch what you see!

Pond Dipping

There is a lovely pond at the centre where we do pond dipping. This might be a bit tricky at home but you could do a nature hunt in your garden instead!

Problem Solving

We always have fun doing problem solving in teams at Menai (the teachers love watching you get really frustrated!).

The chicken, the fox and the grain

Tower of Hanoi

We use car tyres for this! If you want the real Menai experience, change it so you start with 5 discs!

<https://www.mathsisfun.com/games/towerofhanoi.html>

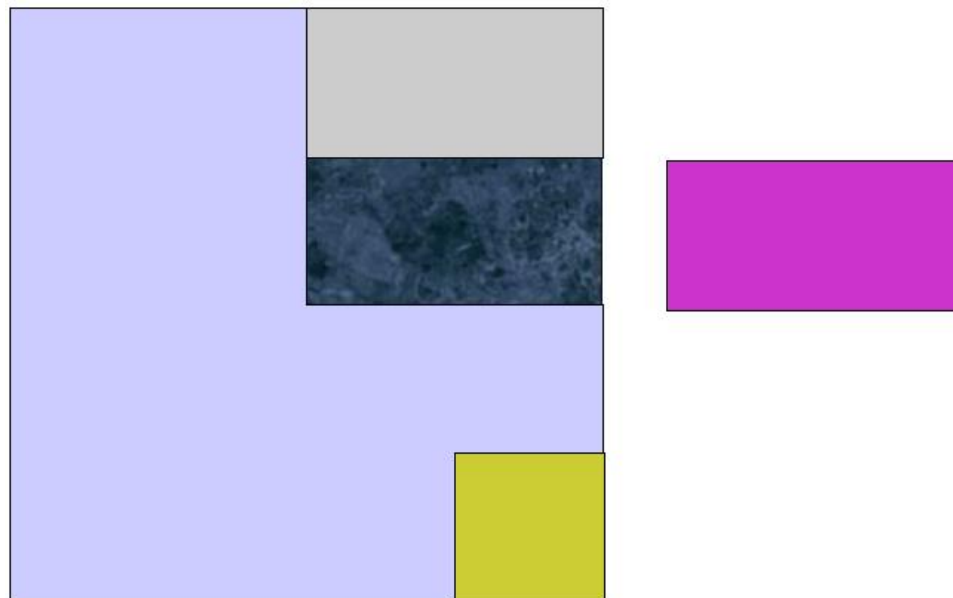

Disks: 5 ▼ ▲ Moves: 0 Restart Log Solve!

Place it

Make a square from the different pieces – choose more pieces for a challenge!

<https://www.mathsisfun.com/games/place-it.html>

Lighty Bulb

Not one we do at Menai, but still fun!
