

## Adventurous Word Choices

Write a sentence to describe what these sea creatures look like (appearance). Think what their special, interesting features are and which adjectives best describe these. You can add extra interest by including ideas about where they are or what they are used for. For example:

*Turtles have strong, flat flippers at the front of their body that they use to glide through the water.*

(If you have favourite sea creatures which you would prefer to describe, this is fine!)

### Useful words:

claw

tentacles

suckers

breathing hole

arms

scales

fins

camouflage

gills

eye
