

# Indigenous Peoples' Day

## Tipi Craft Instructions

A tipi is a cone-shaped tent that was traditionally made of animal skins upon wooden poles by Native American tribes.

### Materials:

- Scissors
- Tape
- 3 craft sticks, skewers, or straight twigs
- Markers, stickers, or paint
- Template

### Instructions:

1. Print the template and decorate as desired.
2. Cut out the template.
3. Form your template into a cone by taping the open edges closed from the inside.
4. Insert your sticks, skewers, or twigs into the cone and tape to the inside so they do not fall out.
