

Year 1: Science Materials

Subject Specific Vocabulary		Properties of materials	Important knowledge
Transparent	Allows light to pass through		<ul style="list-style-type: none"> • I know why different materials have been used to make different objects • I know the difference between humanly constructed and manmade. • I know what properties materials have and how they are constructed • I know the meaning of transparent and opaque and know why it is useful that some materials are transparent • I know what elastic is and can explain what happens as elastic is stretched • I know how to describe the season we are currently in and I can say how I know.
opaque	You cannot see through it		
Absorbent	Able to soak up a liquid		
Elastic	An object that can return to its shape after being pulled		
Naturally Constructed	Made of only natural materials		
Humanly constructed	Made by man		
Prediction	A forecast		
Investigate	Observe what happens		
Experiment	A scientific test		
Material	Anything that has a name.		<p>I know how to explain the change in temperature from last half term until now.</p>
