

# Year 5: Film and Media Knowledge Mat

Subject Specific Vocabulary		Information	Important knowledge about Creating and Publishing
<b>search engine</b>	A search engine is a software system that carries out web searches in a systematic way.		<input type="checkbox"/> I know how to create my own 19th century animation toy.
<b>CEOP</b>	CEOP is the Child Exploitation and Online Protection Centre. It is an online website to help keep children and young people safe.		<input type="checkbox"/> I know and can explain what 'stop motion' means.
<b>onion skinning</b>	Onion skinning feature allows the last frame to be seen when creating the next frame. This way, the animators can see how far they need to move or position the object from the last frame.		<input type="checkbox"/> I know how to plan my stop motion video, thinking about the characters I want to use.
<b>still images</b>	A still image is a single static image		<input type="checkbox"/> I know how to create a stop motion animation.
<b>moving images</b>	An image which has, or is created to give the impression of, movement. e.g. a gif		<input type="checkbox"/> I know how to edit and assess my stop motion animation.
<b>thaumatrope</b>	A thaumatrope is a disc with an image on each side which is attached to two pieces of string. When the strings are twisted quickly, the two images appear to blend into one.		<input type="checkbox"/> I know how apps can access our personal information and how to alter the permissions.
<b>zoetrope</b>	A zoetrope is a cylinder, which has a series of still images placed on the inside. On the outside, there are slits that someone can look through. When someone spins the cylinder and looks through the slits, it gives the appearance of a moving image.		<input type="checkbox"/> I know how to recognise bullying online and how it is different in the real world, how to report and how to get help.
<b>frames animation</b>	Frames animation are still images that appear as a moving image when they are shown one after another at high speed.		
<b>stop motion</b>	Stop motion is a form of animation where a combination of still images are put together to create the illusion of a moving image created using a camera on a digital device.
