

Year 5: Fieldwork Knowledge Mat

Subject Specific Vocabulary		Information	Important Knowledge
local area	Local means existing in or belonging to the area where you live, or to the area that you are talking about.	 	<ul style="list-style-type: none"> <input type="checkbox"/> I can locate the region and local area (Warrington) in relation to other places. <input type="checkbox"/> I can use an aerial image to describe the key physical and human features of the local area. <input type="checkbox"/> I can explore local, regional, national and international links to Warrington. <input type="checkbox"/> I can identify the principal features of a region within the UK. <input type="checkbox"/> I can locate key sites on a regional map. <input type="checkbox"/> I can use scale on a map to measure approximate distances. <input type="checkbox"/> I know how to consider how a region meets the needs of its population. <input type="checkbox"/> I know how to create symbols and a key for a simple land use map. <input type="checkbox"/> I know how to use evidence from fieldwork to reach a conclusion.
regional	Regional geography is the division and study of the Earth in different regions. A region itself is defined as a part of the Earth's surface with one or many similar characteristics that make it unique from other areas.		
national	The term 'national' relates to an entire country.		
international	The term 'international' involves two or more nations.		
technology	Methods, systems, and devices which are the result of scientific knowledge being used for practical purposes.		
environment	All the physical surroundings on Earth are called the environment. The environment includes everything living and everything non-living.		
communities	A community is a group of people living in a particular area.		
transport	the movement of people and goods from place to place		
leisure	Leisure is another word for "free time." It is the time left over after taking care of important things.		
approximate	Close to the actual but not completely exact.
